Functionality first
Because we base our solutions on real needs

Developed to last
Because we care about long-term quality and relationships

Focused on light
Because light makes all the difference

The Lystra Way
Professional Accent Lighting

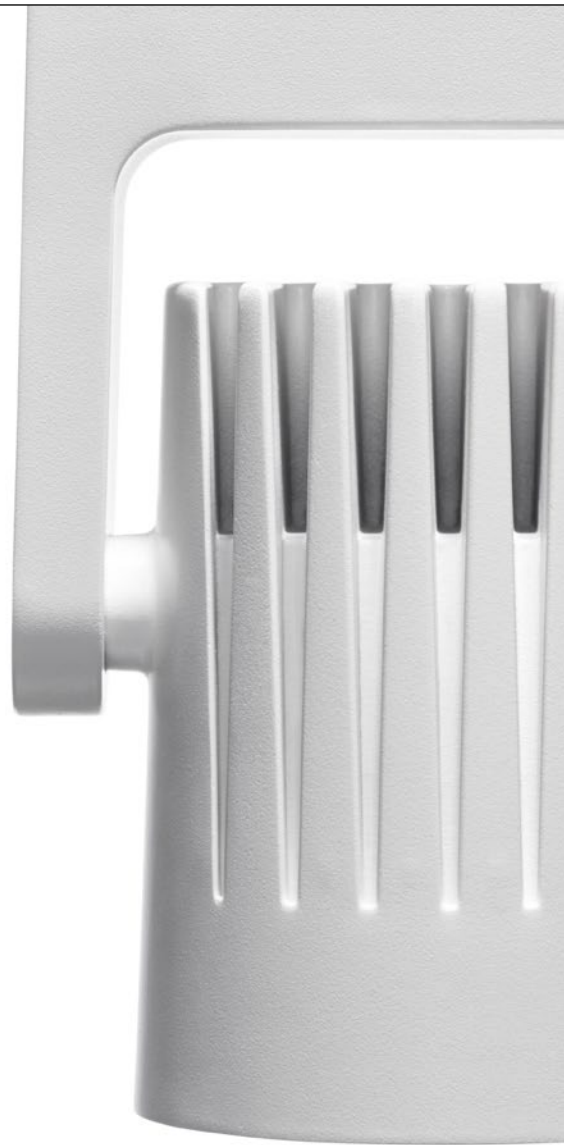

VINCI The Flexible Choice

2000-5000 Lumen

The VINCI family of spotlights is produced in a wide range of models for different needs and preferences. The Vinci spotlight enables you to pinpoint your desired lighting effect such as the preferred colour spectrum to best fit the products on display or your desired mood for the setting. Vinci can be tailored to meet to your requirements. Customized accent lighting created for the initiated, most demanding user.

Furthermore, there is a range of accessories available such as barn doors, honeycomb filters and protective glass. The VINCI Smart luminaires are equipped with DALI control gear and an adapter for Nordic Aluminium Pulse Track.

STUDIO The Compact Solution

1500-4500 Lumen

The STUDIO family of spotlights offers a long-lasting, personal design expression in spotlights that meet the diverse needs of modern lighting design. Thanks to the side-by-side design solution and multiple sizes, Studio can be used in places where size is critical, e.g. where ceiling height is limited or in environments where you want the luminaire to be visually discreet to focus attention on the effect the light produces. Studio – already a design classic – is now adapted to accept the latest in LED technology.

SENTI The New Standard

3000 Lumen

SENTI – setting a new standard. In Senti we concentrated on creating a spotlight with the core idea of “less is more”. Optimized for cost efficiency, shaped for subtle elegance and created for long life. Our starting point was the basic shape of an all-in-one cylinder. We integrated features for efficient air flow, components necessary for rotation and swivelling, and lastly a facet on the side for visual direction and character. All integrated in a single piece. The result is Senti, a highly efficient LED spotlight that sets a new standard for simplicity in professional accent lighting.
